Treasures' report from December 11, 2019 meeting were approved.

Tech Talk:

Paul Clay gave a talk and demonstration on building your own Raspberry Pi computer for less with components order over the internet. After the simple assembly Paul also demonstrated how to download the Pi-Star software directly from the internet website and how to configure the software for C4FM digi. Pi-Star can also be configured for all the other digital systems as well. Paul also runs a workshop focused on the usage of the Raspberry Pi other applications. If interested, please contact Paul for time and dates of the workshop. Thank you Paul for this presentation as well as your continued support of the Vilas County Amateur Radio Club.

Old Business:

EchoLink – Echolink is now up and running. This gives everyone the opportunity to work thru the internet to contact anyone they wish from anyplace that has access to the internet. Future presentation to be given on how to configure various devices that have internet access to take advantage of this system.

New Business:

No new business to be discussed at this time.

Raffel: Yaesu baseball cap was won by N5QH

Next meeting scheduled for February 12, 2020 at 6:00PM, Eagle River Fire Station

7:00PM meeting adjourned.
