Tech Talk on Ferrite Chokes was cancelled and forwarded to next months meeting. In place of talk, Sherri Couglason, the Emergency Management Director for Vilas County presented a talk on what are the responsibilities of the director. Probably would be working with the ARES organization regarding any type of amateur radio involvement should this type of county wide communication become necessary.

Old Business: Duplexers have been pulled from the Land O Lakes repeater. Jeffery has determined that the problem arises from the receive side, the transmit side is fine. Sherri Couglason mentioned that the county is in the process of changing from analog to digital radio equipment so that they might have their old duplex equipment available for donation or resale. She stated that she will check into this and get back to Bob Barnum with this information. Tom(KD9JIB), who has contacts within the state of Tennessee, will see if they also might have duplexers available for sale since the state is also upgrading their communication system.

7:06 P.M. Motion made to adjourn, motion seconded. Meeting adjourned.
